

ETHAN JENSEN

Dubuque, IA | 1013jensen@gmail.com | 919-770-8553 | ethanjensn.github.io/portfolio/ | github.com/ethanjensn

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, SQL

Frameworks & Technologies: React, REST APIs, WebSockets, Docker, PostgreSQL, Prisma, Git, FFmpeg, GStreamer

Software & AI Systems: Real-time video processing, GPU acceleration, YOLO, NVIDIA DeepStream, Reinforcement Learning, Transformer models

PROFESSIONAL EXPERIENCE

Founding Software Engineer | SoundSafe.ai

Mar 2026 – May 2026 | Galena, IL

- Architected and deployed a real-time video analysis platform using event-driven backend services and GPU-accelerated inference pipelines.
- Designed low-latency distributed video ingestion and processing systems using FFmpeg, GStreamer, and GPU acceleration.
- Led backend infrastructure and frontend monitoring dashboard development.

AI Software Engineer | SoundSafe.ai

Dec 2025 – Mar 2026 | Galena, IL

- Migrated NVIDIA DeepStream workflows to a custom FFmpeg-based service improving stream reliability and flexibility.
- Built real-time action classification pipelines using YOLO pose estimation and Transformer-based temporal models.
- Optimized GPU utilization and multi-stream processing latency using NVIDIA acceleration and GStreamer.

AI/ML Intern | SoundSafe.ai

Jun 2025 – Dec 2025 | Galena, IL

- Developed RL agents in NVIDIA Isaac Lab for LiDAR-based obstacle avoidance.
- Engineered a custom CNN-based OCR system for live video stream character recognition.

FEATURED PROJECTS

Full-Stack RSVP Management Platform | React, PostgreSQL, Prisma

- Developed a production-ready RSVP platform with secure API routes, persistent guest management, and mobile-responsive UI.
- Built backend services using PostgreSQL, Prisma, and server-side validation with an admin analytics dashboard.

Violence Detection Pipeline | Python, PyTorch, OpenCV

- Built a real-time video analysis system using YOLO pose estimation and Transformer-based temporal classification.

Automatic License Plate Recognition | Python, YOLO, OpenCV, PaddleOCR

- Developed scalable detection and OCR workflows for real-time license plate recognition from video streams.

EDUCATION

B.S. in Computer Science | Southern New Hampshire University

Expected Jun 2027 | Manchester, NH

ADDITIONAL EXPERIENCE

Commission Sales Associate | Slumberland Furniture

Dec 2022 – Sept 2025 | Dubuque, IA

- Exceeded sales and customer service performance targets.

Repair Technician | CPR Cell Phone Repair

July 2021 – Dec 2022 | Dubuque, IA

- Diagnosed hardware/software issues and managed technical operations.

Warehouse Associate | Slumberland Furniture

Oct 2020 – Jul 2021 | Dubuque, IA

- Supported warehouse logistics, inventory operations, and furniture assembly workflows.
